ness

We strive to combine trend, lifestyle,
quality and price – offering
a contemporary Scandinavian
feeling with international vibe.

Commercializing bespoke craftsmanship
items and a handmade look.

We see ourselves as curators of an
effortless cosiness – easily transforming
any home into a trendy and
casual living space.

*This is the essence of
Villa Collection Denmark.*

VILLA COLLECTION

D E N M A R K

The Scandinavian capacity for casual enjoyment, which we find in the modern design of everything from food and fashion to interiors and décor, continues to be a sought-after lifestyle that the whole world is watching. And it really only takes a few, well-chosen products to attain that particular sense of authenticity and honesty.

Villa Collection Denmark is passionate about this particular kind of atmosphere design – Nordic living with an international twist. Each season, we present an exquisite universe of designs and products that together create a unique range for modern interior design. This season is no exception.

Another big trend right now is colour. Colours have a positive effect on our well-being as well as our mood. The Villa Styles concept is based on this trend. It's a universe of vibrant home décor that melds easily with the Nordic style to add a fresh touch of colour, hope and joy. New arrivals have been added to the existing range to provide even more exciting possibilities for the interior.

Villa Collection Denmark is the epitome of creativity and classic, Nordic DNA. Our mantra is that it should be simple and easy to follow current interior trends without compromising on the quality of the detail or materials. So we primarily work with home accessories where craftsmanship plays a major role, as things made by hand are created with a passion that comes straight from the heart – and that's clear when you see it in your home.

Naturally, sustainability and consideration for our home, the Earth, remain in focus. The use of natural materials and wood with FSC™ certification that ensure responsible forestry, as well as long-life products, all play a role in helping our planet.

We've filled the next pages with decorative new ways to interpret and set the scene for the times we live in.

VILLA COLLECTION DENMARK

Nordic living with an international twist

Carefully selected products that together create a unique range for modern interior design

The Forest Stewardship Council™ (FSC™) is a global, not-for-profit organization dedicated to the promotion of responsible forest management worldwide. FSC™ defines standards based on agreed principles for responsible forest stewardship that are supported by environmental, social, and economic stakeholders. To learn more, visit www.fsc.org. By choosing a FSC™-certified product, you are supporting responsible management of the world's forests.

Many of Villa Collection Denmark's products in this catalogue are made from FSC™-certified wood as well as FSC™-certified paper and other controlled material. You can easily find them by looking for the small FSC™ label by the product.

Look for our FSC™-certified products.

FURNITURE

They say your home reveals *who you are*

We create furniture in clean-lined,
cosy designs and each piece tells its own story.
We love wood. It's part of our Nordic DNA.
It lends warmth and glow to any home,
in the city or in the countryside,
newly built or built decades ago.

European Oak

More and more
beautiful over time

Oak is a tree species that grows in most of the world and it is commonly found throughout Denmark. There are more than 200 different species of oak. Oak is among the most durable wood species in Scandinavia.

The oak tree made its first appearance in Denmark about 10,000 years ago. Historically, oak has been used for many different purposes such as building houses, ships, floors, tools and furniture. And thanks to its high tannin content, oak is also used for tanning hides and skins and for storing and ageing wines and spirits.

Oak is extremely hard, strong and heavy. This makes oak ideal for furniture, but even the hardest woods can become scratched and scuffed because wood is a natural material. If oak furniture is well taken care of, it will last for many years. The wood will become more beautiful as it develops a patina over time. Oak furniture is elegant and exclusive, and it blends in perfectly with modern Scandinavian home décor.

Villa Collection Denmark uses FSC™-certified oak (FSC-C166612). FSC™ is a certification system that provides accreditation for responsible forestry. It is your assurance that wood and forest-based products bearing the FSC™ label are sourced from responsibly managed forests and other controlled sources.

The oak tree made its first appearance in Denmark about 10,000 years ago.

Bast

Oak – black

BAST consists of four decorative, small furniture pieces that make useful additions to any home, large or small. The oak furniture pieces are all delivered as knock down and are painted black. The products are made from FSC™-certified oak (FSC-C166612).

Bast

Oak – *black*

For the BAST series, we intentionally selected oak as it creates stunning natural grain patterns as well as solid, durable furniture. Soft, rounded contours and unique details unite to create an aesthetic expression.

Bodo

Oak – *naturally oiled*

The BODO series includes a desk, a stool, a high stool, a coffee table, a bench, a lounge chair and a mirror crafted from oiled oak, featuring rounded contours and stylish details. Oak wood is a strong and long-lasting material that develops a patina over time. The warm glow melds beautifully with most home décors, adding cosiness and charm.

A coat of vegetable oil is applied to each BODO product that makes it more resistant to the negative effects of daily wear and tear. The oil penetrates the wood and forms a surface barrier that protects against liquid and abrasion, but do not allow water to sit on your BODO product. Wipe the surface dry with a hard-wrung cloth. The products are made from FSC™-certified oak (FSC-C166612).

- Naturally oiled oak
- Functional and strong
- Aesthetic design
- Knock down packed

Bodo

Oak – naturally oiled

This elegant oak wood series is ideal for anywhere in your home. The seven products can be styled together as a group, or used individually where needed. The well-considered details create an aesthetic whole.

BODO MIRROR

34478

L 80 W 23 H 1,8 cm

Hang it your way

Mirror with oiled oak frame that can be hung horizontally or vertically on the wall. The product's wood component is FSC™-certified oak (FSC-C166612). The design beautifully complements the rest of the Bodo series, ensuring a harmonious aesthetic in the home.

Bodo

Simple and stylish design

The elegant round coffee table stands on three legs and is crafted from the most beautiful oak. This simple and stylish design fits into any home, and the table can be styled in a multitude of ways. The product is made from FSC™-certified oak (FSC-C166612).

Bodo

A beautiful statement piece

With its laid-back look, this solid oak lounge chair is the epitome of Nordic living, with an international twist. The simple, stylish design is perfect for a Scandinavian interior with a relaxed vibe, but can also easily stand on its own as a beautiful statement piece. The seat and backrest of the chair are designed to ensure comfortable seating for many hours. The polyester cover is certified according to the OEKO-TEX® Standard 100. The wide armrests can also serve as a small table for a book or perhaps a gin and tonic on a coaster. The product is made from FSC™-certified oak (FSC-C166612).

Natural untreated oak

Barv

BARV is a furniture series built around natural materials and functional design elements, resulting in a harmonious blend of strength and style. The most distinctive feature of the series is the continuous cord that is integrated into the design in a way that is both practical and aesthetic. BARV represents a modern lifestyle and invites you to immerse yourself in timeless beauty. The series is designed in collaboration with Design Studio Swift Creative, Aarhus. The product's wood component is FSC™-certified oak (FSC-C166612).

Ebern – *white-washed oak*

Simple and beautiful in oak

This beautiful oak range EBERN is produced from American oak from the village of Smyrna in New York State.

The furniture has a white-washed finish from treatment with white-pigmented soap. The beautiful minimalist furniture will bring a bright and inviting Nordic look to your home.

All EBERN products are knock down packed and made from FSC™-certified oak (FSC-C166612).

The table is designed exclusively for indoor use.

Natural stone mosaics

Pattern, 14310/KARV side table

Patterns, 14312/KARV side table, 2 pcs.

Karv

Bar table – *stone top*

The bar cart's tabletop, featuring a rustic and decorative mosaic pattern, is handmade from three different types of natural stone. The cart has a wide range of uses and can be a beautiful element in your décor with space for books, plants and flowers, candles and other decorations. You can also use it for making and serving drinks to your guests.

**Handmade top made of
3 types of natural stone**

**Powder-galvanised
black iron**

**Height: 83 cm
Length: 81 cm
Width: 46 cm**

Metal wheel with lock

Unique

limestone tabletop

WALDE is an elegant set of nesting tables with a limestone tabletop. Limestone is a sedimentary rock found in many parts of the world. It has a smooth surface that makes it ideal as a tabletop. We love the natural look in the home.

Ank

Svit

Small tables

- maximum impact

Small tables add design flair anywhere in the home. They can be used in the living room as a complement to the coffee table, in the hallway or in the bedroom as a bedside table. Knock down packed.

Svir

Svale

For the modern home

Despite its minimalist, industrial look, the SVALE chair offers excellent seating comfort. Create contrast and warmth by adding soft pillows or sheepskins. The chair is made of powder-coated black iron and delivered unassembled – legs are mounted using four included screws.

Soe

Soe & Sokna

– *natural beauty*

These chairs bring nature into the home with beautiful natural rattan. Add an elegant touch to the chairs with a pillow or soft sheepskin for a new and different look.

For indoor use only.

Sokna

Paper cord is a strong and durable material that can be woven into all sorts of shapes.

Home décor crafted from paper

Villa Collection Denmark has a penchant for natural materials that bring nature into the home.

A selection of Villa Collection Denmark's and Villa Styles' products are made from FSC™-certified paper sourced from responsibly managed forests and other controlled material. FSC™ (Forest Stewardship Council™) helps take care of forests and the people and animals that live in them. Caring for our planet and its resources is important to Villa Collection Denmark, which is why it is a conscious choice that the paper for the products in the range is FSC™-certified.

The paper is shredded and twisted into paper cord – a strong and durable natural material that was invented during the Second World War, when it was difficult to obtain the materials normally used to make cord. Paper cord is typically used to make home accessories and furniture. The material can either be used undyed or dyed in beautiful colours that enliven the décor. It is easy to work with and can be used in a wide variety of ways, including for the design of the stylish hand-woven products in the Villa Collection Denmark and Villa Styles ranges.

Vem

Beautiful natural materials

Paper is a key material in the VAREL series, which consists of a decorative vase and a side table. The series elements are inspired by the Scandinavian design style. The sculptural VAREL side table with a cone-shaped base makes a decorative addition anywhere in the home, and is ideal as a side table next to an armchair or as a bedside table in the bedroom. The product is made from FSC™-certified paper and other controlled material (FSC-C166612).

The VEM series features two rugs and a pouffe. The pouffe is made of 60% jute and 40% cotton, and is filled with polystyrene balls. It is handwoven, meaning that no two are exactly the same. The green, natural and pink colours create a pretty pattern. Get comfortable in your favourite chair with your feet resting on this wonderful pouffe. With OEKO-TEX® STANDARD 100 certification.

MIRRORS

Functional & decorative *element*

A mirror can be used as a functional and decorative element of the décor. It helps to open up the space and make it seem bigger and brighter.

Organic shapes

The mirrors stand out with their organic shapes that challenge traditional sharp lines and create an interesting visual expression. The VERA series brings aesthetics into the room by combining soft lines with a modern design. The mirrors in the range are not only a practical addition to the home, but also an artistic statement that catches the eye and adds depth and character to the interior.

Vasto

The VASTO mirrors have a black iron frame and are perfect for the bedroom or hallway. The back of the mirrors features hinges that allow you to hang them on the wall.

The large oval VASTO mirror is suitable for free-standing or hanging on a wall. At the back of the mirror is a stand that supports the mirror when positioned on the floor. The stand can be folded up and removed if the mirror is hung on the wall instead.

On the back of the small oval VASTO mirror you will find 4 hinges so that the mirror can hang both horizontally and vertically on the wall.

The oblong VASTO mirror with a rounded top and straight base is wider and stands stable on the floor. A removable base is included so that the mirror can stand freely on the floor.

Vardo

Mirror, mirror ...

The round VARDO mirror comes in four different sizes (100, 80, 60 and 50 cm) with a black frame to bring flair to the home décor. The 60 cm VARDO mirror also comes in off-white, and the 80 cm mirror is also available in brass.

The mirror has more than a practical function in the hallway or bathroom. It is also beautiful and decorative in the living room or bedroom, for example.

Venja

- however you like it

What's your combination?

The mirror in two different sizes can hang in 4 different fantastic ways, and if you combine the two sizes, you have a wealth of possibilities for beautiful combinations.

INTERIOR

Interior

Intérieur

The word “interior” comes from the French word “intérieur”, derived from the Latin word “interior”, which means “inner”. Interior décor helps create the inner soul of the home.

Nord

Design meets nature

A natural focal point in your home

NORD is a charming series consisting of a wall shelf, a multi-functional holder and hurricanes in two different sizes. The pieces in the series have an organic design inspired by the soft shapes of nature, designed to bring a natural aesthetic into any space. NORD emphasises the Nordic interior design style through a harmonious combination of functionality, naturalness and minimalism.

The wall shelf offers elegant storage space, while the holder provides practical organisation for everything from mugs to keys and jewellery. The beautiful hurricanes help create a cosy atmosphere with candlelight.

Stoneware is made from clay and fired at a high temperature. Nature is the inspiration for our stoneware vases and planters, and this is made evident in decorations reminiscent of leaves, poppy seed pods, and other such motifs.

The vases are hand-crafted by skilled and experienced artisans. They are shaped on a turntable, and the decorations are made by hand and applied. A unique reactive glaze is then applied to the vases, which are fired in a kiln. The reactive glaze behaves differently from product to product, so the glaze and colour of each piece will vary.

Hand-crafted stoneware

Our vases have a unique look because they are hand-crafted by highly experienced people who are passionate about their craft.

Eik

Handmade with reactive glaze

The vases are inspired by the Nordic style that values simplicity, functionality and minimalism. The cream-coloured glaze complements the natural light and creates a sense of calm and harmony.

Klast

Two in one

Beautiful handmade piece made of stoneware with a unique reactive glazing. The design is evocative of a beach filled with stones shaped by nature over thousands of years. KLAST can be used as a vase or as a flowerpot.

Stren

A work of art

The inspiration for this vase came from the forest floor in the Nordic forests, where mushrooms are growing during the autumn. Each individual vase is hand-modelled with reactive glaze and therefore utterly unique.

Elha

Handmade and
one-of-a-kind

Gorgeous sculptural stoneware vases that look as impressive empty as they do filled with a large bouquet of flowers. The vases are covered with decorative shapes in the form of poppy seed pods, which are made and applied by hand. The new colour Honey adds a warm and pleasant glow that complements the natural beauty of the vase.

Aug

Inspired by nature

Nature is a great source of inspiration for us, and we use it in many different ways in our designs. The vase decorations and colours are inspired by tree leaves, beach stones and other impressions found in nature.

Molde

Dras

ELV

A simple design aesthetic

ELV is a series of beautiful and rugged stoneware products in off-white with small black dots. The simple design language and natural materials give the vases and candlesticks a discreet and aesthetic appearance. Combine them or mix them with vases and candlesticks in other materials, colours and sizes. The vase is glazed inside and is therefore waterproof.

Elva

Create lovely floral arrangements with just a few flowers. Simply tuck flowers into the elegant top and give them the recognition they deserve. Find small, pretty flowers in the garden and in nature and let them shine in the vases.

Daun

Ist

Mouth-blown silhouettes

Make your décor different and exciting by playing with shapes and colours. For example, style these stunning glass vases crafted from coloured mouth-blown glass together with other vases in a variety of heights, materials and colours.

Sigt

Like stones on the beach

SIGT is a collection of two hand-decorated vases in heavy hand-blown glass. Inspiration for these glass vases with their raw, matte surfaces comes from driftwood and the way that the sea wears down the stones on the beach over thousands of years. The vases are meant to be seen and touched. They stimulate the senses.

Lyst & Lyng

Organic and sculptural

The playful design of the candlestick and vase draws inspiration from tree branches found in nature. They come in two colours, sand and black, and will automatically draw attention. The candlestick and vase are both cast and polished by hand.

The candlestick comes in two versions: A candlestick for four Ø2.2cm crowntop candles and a candlestick for six Ø1.2cm taper candles. They allow unlimited options for all the vibrant candles that are trending right now. And of course we have candles for all of the candlesticks.

Tana

Recycled paper mache

These beautiful decoration vases are crafted from paper mache and finished with hand-painted decoration. The vases are designed for dried flowers like the eternity bouquet - if you wish to use fresh flowers or plants, place a water-proof container inside the vase. Clean only with a dry cloth.

Torden

Dark and rustic

Vases and wall decorations in dark grey/black iron. The stunning tall vases with a narrow opening and a raw, rustic surface lend dynamism and personality to the décor. Hang the dishes on walls in every colour tone. They pair wonderfully with other types of materials, both soft and hard.

Eye-catching ornamental vase made from paper

The VAREL decoration vase is hand-crafted from natural paper cord. It is eye-catching and beautiful standing alone as a sculptural element or styled with dried flowers.

The product is made from FSC™-certified paper and other controlled material (FSC-C166612).

The BUBBLE, OTEA, HVILS and CUNEO series include vases featuring several layers of glass. They are designed by Villa Collection Denmark's design team and showcase all that is made possible when working with multiple layers of glass. The vases are handcrafted and hand-blown, so each one is unique.

Glass

Alluring like the sea

Glass is an amazing material that allows endless experimentation with shapes and colours. It is one of our favourite materials, which is why it features prominently in our range. Glass is made from melting sand into a liquid. Next, a variety of colours and other ingredients can be added to the mixture, depending on the desired result. Glass is alluring, just like the sea or a stunning blue sky.

Glassblowing is an ancient craft that is still practiced to this day. The glassblowing technique is what makes each glass product unique. A hollow iron tube is dipped into molten glass, and air is blown through the tube to create a form to be shaped.

We adore the artisanal look of the glass products made with this technique. Every glass product in our collection is made with love for this splendid material.

Trio

Together or separately

Three atmospheric vases in different heights featuring sculptural shapes that meld into your décor with ease either with or without flowers, whether you use one, two or all three vases together.

Bubble

Beautiful bubbles

The Bubble vases have a silhouette that's both playful and pleasing. The transparent glass version is reminiscent of soap bubbles carried aloft by the wind, and in the version with white glass enclosed in clear glass, the vase takes on a glossy, almost candy-like look.

Hvils

HVILS is a series of mouth-blown glass vases made in Europe by skilled glass artisans. With their wide bases and narrower, tubular tops, the vases invite the flowers to spread out, revealing them in their full glory.

The series consists of two stunning vases in triple layers of coloured glass: clear, white and honey. Three more vases in ultra-clear glass with the same decorative shape have now been added to the series: Two with a smooth surface in different sizes, and one with ridges.

In addition to the vases, the series has been enhanced with pillar candles inspired by the same design aesthetic. The vases and pillar candles complement each other beautifully. The candles are produced in Europe.

Otea

Nature-inspired glass vases

Three enchanting vases in mouth-blown glass, with stunning natural colours and soft shapes that are pleasing to the eye. Inspiration for the vases has been drawn from the Nordic nature: The beautiful brown hues of amber. The colour of sand dancing in the wind. The encounter between a heat wave and an ocean wave.

Rost

One-two-three-four

Sculptural stoneware vases in hot colours: dark brown, green, dark blue and now also in a beautiful offwhite colour. The glazing is reactive, which means that no two vases are alike. Differences are due to shape, firing temperature and location inside the kiln, and since a reactive glaze is more noticeable on edges, this effect is very important for these four vases. The vases are stunning individually as well as styled in a group.

Vilde

Soft and stylish

Stoneware vases with matte soft coating glaze add style to the decor with their soft, sculptural shapes. The vases are decorative both with flowers and without.

Calvi

A big trend in 2023/2024 is home décor and fashion decorated with bodies and body parts, such as faces like these. CALVI can be used as a flowerpot but also as a decorative vase. Though a bit serious, the unique expression of the faces is guaranteed to put a smile on your lips.

Leer

A unique character

The beautiful planter is handmade in Portugal. It is made from stoneware and fired at 1150 degrees. The reactive glaze gives each planter a unique character. Let your plants come into their own in this stunning planter, which is available in an array of sizes and colours.

Loev

Raw and decorative

The beautiful, raw pots in grey cement with rustic finish are ideal for decoration and for holding dried flowers. Please note that the pots are not waterproof. If you want to use them for live houseplants, we recommend using an insert inside the pot.

Calbe

A fun detail

There should always be room for those fun, little details in the décor. Shaped like a gorilla's head, this flower pot adds a decorative and quirky touch. It's often this kind of detail that adds personality to the home. The plant pot is made from cement. Since condensation may occur, elevating the plant pot with a saucer or stand is recommended.

Talvik

Unique companions

The decorative cement figurines add an interesting element to the décor, and make a unique companion to pieces such as vases and candle-holders.

Sten

Natural recycling

The elegant, flat storage bowls in two sizes with beautiful structures are made using natural residual materials such as wheat straw, nut shells and coffee bean husks.

Thine

Unique storage

The THINE series consists of versatile storage jars and bowls that can be used in many places in the home, such as the office, kitchen, bathroom and children's room. Each piece is made of stoneware with a unique reactive glaze, which is central to the charm and unique aesthetic of the series.

Amat

Clean and classic

AMAT is a classic candleholder in black or gold-tone metal. The minimalist style makes it ideal for using in table decorations and the like, where it won't steal focus from the main attraction.

BASKETS & LANTERNS

Natural materials *indoors & outdoors*

Rattan, water hyacinth and bamboo are quality materials that can be made into decorative planters, baskets and lanterns.

Thum

Inspired by the beach

The THUM plant pots are made of stone, sand and polyresin. The pots are reminiscent of beautiful sandy beaches, where the sun shines, the sea sprays and the breeze blows. The soft, organic shapes are inspired by pebbles, rounded by the waves of the sea.

The pots are suitable for both indoor and outdoor use. When using outdoors, a hole needs to be drilled at the bottom of the pot for draining water. The pots can withstand down to -5°C.

The plant pot provides the opportunity to create a green and vibrant environment in the home or outside on the patio or balcony.

NAME

Ylm

Rattan indoors and out

Make nature a bigger part of the décor with charming planters crafted from durable rattan. Green house-plants and colourful flowers create more cosiness and life.

The planters are lined with a plastic bag and are therefore suitable for both indoor and outdoor use. If they are placed outside, you can make water drainage holes in the bag.

There are 300 different rattan plants in many different sizes. Rattan is a natural product and as such it is not water-repellent, so if the planters are placed outdoors they will develop patina and take on a grey finish over time, depending on the weather.

Vida & Vilda

Robust and decorative planters in two sizes. They are heavy, sturdy and solid which makes them suitable for large plants. Make nature a bigger part of the décor with charming plant baskets in rattan.

Suitable for both indoor and outdoor use. The planters are lined with a plastic bag. If they are placed outside, you can make water drainage holes in the bag.

Toerv

Natural storage

The basket set in water hyacinth is a stylish and practical storage solution for towels, toilet rolls, throw blankets, knitting, toys and much more. The baskets feature woven patterns that contrast beautifully with each other.

Water hyacinth is a plant that grows in tropical waters such as ponds, lakes, and ditches. It is harvested at regular intervals to ensure that it does not take over the waterways, which require sunlight to maintain their biodiversity.

Amas & Asra

A harmonious silhouette

The lanterns feature a practical glass insert at the bottom to house a LED light or a stearin candle. The lanterns have a beautiful and harmonious silhouette, and a soft light is diffused through the fine bamboo to create a cosy, calm and warm atmosphere. The lanterns are not weatherproof and should only be used indoors, such as inside the home or in a greenhouse.

Ancona

Stylish cosiness

Make your summer evenings special with lanterns to light up your way. Available in two different sizes, the Ancona lanterns are made of galvanized steel with an elegant black coating that fits perfectly into any garden or terrace. They also have a borosilicate glass insert with a lid that protects the flame from the wind and creates a warm and welcoming atmosphere.

With their practical handles, the lanterns are easy to move around and place exactly where you want them. Design: Steffensen & Würtz.

Alia

Natural beauty and inspiring light

A soft and inviting light emanates from our handmade bamboo lanterns that light up the garden, the terrace or the front door. The natural beauty of bamboo comes alive and brings a sense of true tranquillity to your outdoor space. The lanterns are made of FSC®-certified bamboo, and each lantern has a practical handle and a strong glass insert that protects the flame and ensures that the light creates a cosy atmosphere. The green paint used on the lanterns is water-based, thereby providing good durability.

TEXTILES & SHEEPSKINS

Textiles & *sheepskins*

Textiles consist of natural fibres like cotton and synthetic fibres like polyester, which are combined using methods including weaving, knitting, knotting, crocheting and more.

We primarily use natural materials such as cotton and linen for the textiles in our range.

Vem

Handwoven beauties

The handwoven VEM rug is available in two sizes and is made from 75% jute, 20% chenille and 5% cotton. Green, natural and rose shades are repeated in the rug, creating the same unique and decorative pattern as on the pouffe. With OEKO-TEX® STANDARD 100 certification.

The Faroese climate is predominantly mild with cool summers and mild winters. The weather is fickle and can quickly change from mild to stormy – which is part of its charm.

The Faroe Islands

Raw and breathtaking nature

The Faroe Islands is a country that is located in the middle of the immense, thunderous Atlantic Ocean. The archipelago comprises 18 principal islands connected by tunnels and ferries.

The raw, harsh and unspoiled nature is entirely unique. The air is fresh and clean, and a very special calm reigns here. Green mountains, roaring sea and dramatic cliffs are some of the hallmarks of the enchanting landscape.

The Nordic style is at the core of Villa Collection Denmark's design philosophy, with nature's materials, colours and expressions as the focal point. Our collection includes gorgeous Faroese sheepskins that are selected for a very special reason.

Faroese sheep are very robust and live out in the wild all year round, largely fending for themselves in the harsh, changeable weather. The wool of Faroese sheep has two layers – an inner layer, which is short and soft, and an outer layer, which is coarser and longer. The Faroese sheepskins are health-certified and meet EU veterinary requirements.

Faroese sheep have never been subject to industrialisation, which means that the colour of the skins varies greatly, and each one is unique. We've deliberately not opted out of any colour combinations, as the differences are just what is so amazing about the skins of the almost wild Faroese sheep.

villi

Beautiful and authentic

Let the Faroese nature take over your home and bring cosiness to every corner. You can use a sheepskin as a rug in the living room to create warmth and cosiness or throw the skin over a chair or sofa to add texture and style. Use the different colours and textures of Faroese sheepskins to match your interior style.

Faroese sheepskin

Useful tips on maintaining and caring for your sheepskin:

- Shake it regularly
- Vacuum it regularly
- Air it – ideally in frosty weather. It can also be put in the freezer overnight
- If you spill something on it, wipe it with a damp cloth
- Brush it through to keep it looking nice

LIGHTING

Creating a special atmosphere

Lighting is a must in every room of the home, and that includes outdoor spaces. The right lighting creates a special atmosphere and gives the home character.

Vilja

Sophisticated aesthetics

The stylish VILJA series table lamps are available with either a shiny polished brass lampshade and a black marble base or with a deep black metal lampshade and a base in natural-coloured travertine.

Choose the sleek sophistication of the black marble base, with its deep hues and elegant veining for a smooth, contemporary look, or the warm, natural charm of the travertine base, with its earthy tones and textured finish for a softer,

more organic expression. Both materials are natural stones, created by the forces of nature over millions of years, offering a unique touch of luxury and style to your home.

The lamps have three different light settings that can be easily customised at the touch of a button. With their minimalist and clean lines, VILJA table lamps are ideal as part of the decor in the living room, on the bedside table or as an elegant touch in the home office.

Natural untreated oak

BARV is a furniture series built around natural materials and functional design elements, resulting in a harmonious blend of strength and style. The most distinctive feature of the series is the continuous cord that is integrated into the design in a way that is both practical and aesthetic. The lamps in the BARV series have shades in natural-coloured fabric that complement the natural oak wood and other features of the lamps. BARV represents a modern lifestyle and invites you to immerse yourself in timeless beauty.

The series is designed in collaboration with Design Studio Swift Creative, Aarhus. The product's wood component is FSC™-certified oak (FSC-C166612).

Vilma

Real craftsmanship in rattan

Create a cosy atmosphere in any room with this wireless LED lamp which features a lamp shade made of natural-coloured rattan and a base in solid oak. The design matches the Nordic décor style perfectly, known for its simplicity, functionality and natural elements. The lamp is for indoor use and offers three different brightness settings, allowing you to create just the right mood. Toggle between brightness settings with a simple press of the button. The lamp comes with a 1.2 m USB-C cable for charging. A full charge, which takes about 7 hours, provides between 8 and 16 hours of light, depending on the brightness setting selected. The lamp is easy to clean with a damp cloth.

A beautiful statement

These gorgeous rattan lamps are the perfect match for any cool, Scandinavian decor with their beautiful, soft and warm light. The large floor model even features a dual light source with light bulbs situated at both the top and bottom of the base – a beautiful, sculptural element for the Nordic home.

Soft Light

Vinka

Vilna

Luminous design

Lamps in natural materials enhance their surroundings with the gentlest, softest light. The VILNA pendant lamps in natural rattan are a completely new design in three different sizes. Place them singly or together, they make stylish additions to any space.

Rattan

Villa Collection Denmark uses only Indonesian natural rattan, which is renowned as a durable but lightweight material. Rattan is one of the world's fastest-growing natural materials for making furniture and interiors and is surpassed only by bamboo. And this makes it an ideal material. Rattan is easy to work with and can be steamed and bent in a wide variety of ways.

The age of the rattan plant is what creates the different appearances of the products. The stalks

from young trees are lighter and thinner, while the material becomes darker and thicker the older the rattan plant is.

VINKA and WERNA are sculptural table lamps and floor lamps in natural and black rattan. They are designed to be beautiful even without use of the light source. A perfect match for any cool, Scandinavian décor with their beautiful, soft and warm light.

THE TRAVEL ALBUMIC 2
New Nordic House

Play of light cardboard design

Lamps of cardboard

These three beautiful lamps are all handmade from cardboard, and in addition to giving a perfect light under the lamps they also provide a fantastic play of light through the lamp shade. The lamps will last for many years, but obviously do not tolerate water. The lamps can be cleaned easily with a soft duster.

ALK

Nesvik

Industrial design for a minimalist décor. Simple and functional.

Nesvik

Lamps with smart features

The popular NESVIK series features wall lamps and table lamps in sand-coloured or black iron. The industrial design fits well with a minimalist interior.

The lampshade of the wall lamp can be tilted and turned to the desired position. Perfect for task lighting in the kitchen or as a night table lamp in the bedroom, where the swivel function is useful when reading in bed.

The lampshade of the table lamp that can be tilted to the desired position. For example, it can be used in the home office or on the bedside table in the bedroom.

LED lamps

Late summer evenings ought to be enjoyed with wonderful music or a good audiobook.

LED lamps with speakers from the HAV series are perfect for that purpose.

Hav

Perfect for parties and cosy nights

HAV is a cosy Scandinavian-designed lantern speaker for outdoor and indoor use, easy to move around and bring along. The HAV lantern speaker creates the perfect atmosphere for a garden party or a cosy BBQ evening, and contributes to a beautiful lounge atmosphere inside. Simply connect the speaker to your smartphone to start the music.

IP44 approved and suitable for outdoor use.

HAV is designed in cooperation with Design Studio Swift Creative, Aarhus.

Recharged by the sun

The HAV lounge lamp is also available with solar. The solar cells charge the lamp during the day so it's ready to light up when darkness falls. If the sun hasn't been out, the lamp can easily be charged with the included USB-C cable.

The HAV family

The HAV family includes LED lamps with speakers and lounge lamps in a smaller size. With their practical size, the small HAV lamps can easily be taken to the beach or on a picnic.

MIDNAT are stylish and functional cordless LED lamps that can be placed anywhere – in the children's room, bathroom, a small hallway or as an appealing lounge lamp wherever you take it. The lamps are IP44-certified which means that they can be placed outdoors, even in wet weather.

Midnat

- wherever you go

Maane

These three lovely solar LED lamps will light up your garden or balcony on dark evenings. The lamps turn on automatically when darkness falls, providing approx. 6 hours of illumination after 8 hours of full charging in daylight.

DINING

Stylish dinnerware

*makes the dining
experience even better*

Eating is about more than just the flavour of the food. We also “eat with our eyes”, so visual presentation plays a big role in our enjoyment.

Fjord

This series of porcelain has an amazing look and a unique surface, as the reactive glaze is made by hand on each and every one of them. The charm is that not two are alike, as both colour and surface may vary.

The series consists of 3 wonderful colours and surfaces in the form of a dinner plate, a lunch plate, 2 bowls, a mug and an espresso cup. The newest additions are a serving platter and two serving bowls.

Tempting
tableware

Endless possibilities

Mix & match

FJORD allows you to create a personalised look using your favourite colours: blue, black metallic and cream.

Mix and contrast different dinnerware pieces and colours. Or select one single colour if you prefer a clean look.

FJORD

Food in focus

Food becomes even more enticing when it is served in an appealing way. The new FJORD serving platter and two new serving bowls are ideal for serving everything from delicious tapas to crisp salads.

Evig

Almost the same
yet completely
different

Part of the charm of EVIG is that no two products are exactly alike. The beautiful porcelain with a reactive glaze has an amazing appearance with a completely unique finish, as each product is hand-decorated and therefore colour and surface may vary.

Design your own

EVIG collection

Mugs and espresso cups available in
6 colours/colour combinations

Bowls and plates available in
3 colours

Mix and match items from
the EVIG series as you please.

For instance, the green bowl is a great match with both the green
mug and the green and white-coloured mug.

Serve in style

If you make a little effort when you serve your food, the food gets the attention it deserves. New additions to the Evig dinnerware series are small bowls that hold 0.18 litres and a beautiful round serving dish. The bowls are ideal for everything from crunchy snacks, nuts and olives to delicious sauces and dressings, and the serving dish will make your home-made food take centre stage on the table.

A complete dinnerware set

The EVIG dinner plates, lunch plates, espresso cups, mugs and bowls have now been joined by a serving platter, two serving bowls and a jug. Set the table with beautiful EVIG dinnerware and delight your guests with a lovely meal.

Invite beauty and durability into your home with the Elstra stoneware dinnerware set. Now you can also enjoy Elstra in an attractive light blue colour which adds a light and airy touch to your table setting. Elstra has a lovely reactive glaze with four exquisite patterns that make each piece a work of art in itself. It is important to note that Elstra is delivered in assorted pieces and it is therefore not possible to guarantee specific patterns.

The dinnerware set includes elegant espresso cups and mugs, plates and bowls in several sizes, a serving dish and a lovely teapot with filter. In addition to its aesthetic qualities, the stoneware is designed to be dishwasher and microwave safe, making it an ideal choice for modern living.

Vaest

An exquisite
ceramic
collection

Raw nostalgia

VAEST is an exquisite ceramic collection with a beautiful and functional style that takes us back to the 1960s. The spikes and matte glaze give the series elements a raw expression – an exciting contrast to the Scandinavian style characterised by natural colours and natural materials.

The series is handmade in Portugal, where the products are cast in a mould and hand-polished by skilled artisans, after which they are dried and fired for the first time in a 1050 degree Celsius kiln. The products are then glazed and fired again at 1000 degrees Celsius.

Iris

Unique colour harmony

The handmade stoneware mugs are a unique addition to any ceramic collection. The IRIS mug's reactive glaze gives a unique play of colours and a distinctive look to each mug. The soft and inviting colours add a warm and cosy feeling, making the mugs ideal for everyday use. The colours complement each other and are aesthetically pleasing.

Hela

Unique wood pattern

Mugs and espresso cups with a unique wood pattern that blends beautifully into the Scandinavian design aesthetic. Sit back and enjoy a quiet moment with a good cup of coffee or tea.

WELL-BEING

Lovely spa atmosphere *at home*

Using home décor in luxurious materials
can create a lovely spa atmosphere
in the bathroom. Our products are created with
self-indulgence and everyday luxury in mind.

Live candles & wonderful scents

Villa Collection Denmark has a wide and varied range of scented candles and fragrance oils for “hygge”, atmosphere and a cosy mood in your room. There are fabulous fragrances to please everyone, and we’re constantly adding wonderful new combinations.

Our range includes gorgeous, high-quality luxury candles in both glass and ceramic jars, with and without lids.

Our scented candles made with coconut wax and rapeseed wax have become very popular over the last few years. They contain natural, biodegradable

coconut wax and rapeseed wax, and they burn for longer and are cleaner compared with the certified palm oil wax traditionally used in our scented candles. We’re working on replacing palm oil with rapeseed wax in our entire range of scented candles.

The fragrance oil is solvent-free and contains pure extracts and essential oils. All fragrance oils are supplied with eight scented sticks that will keep your home smelling beautiful for up to eight months.

Look forward to brighter times ahead!

Good advice on live candles

- Cut the wick down to 1 cm before you light the candle and keep it at a length of 1 cm while the candle is lit thereby avoiding smoke.
- Never leave a burning candle unattended or in the company of children or pets.
- Always cut off the high edges thus preventing a flickering flame that can result in soot.
- Always place groups of candles with a minimum of 10 cm between the wicks to avoid overheating which leads to melting or running candles.
- Never place your candles where they will be exposed to draught or on a radiator as this can result in soot and a running candle.
- Always place your candle on a fireproof base and away from inflammable items keep the top of the candle free from used matches, as these may act as a wick.
- Always make sure that the candle is put out before leaving it and put the candle out with an extinguisher to avoid soot.

Villa Collection Denmark relaunches its scented candle collection featuring mild and pleasant fragrances

All our candles are now made in Europe, which makes perfect sense as we use natural, biodegradable European rapeseed wax, the lovely unique ceramics with reactive glaze finish are handmade in Portugal, and the jars for the scented candles in crystallized stearin originate from Italy. We look forward to sharing all our exciting new products with you.

60–80% of the energy used in the production of the new scented candles is sourced from wind turbine and/or solar thermal energy. All wicks are made from OEKO-TEX® standard 100-certified cotton, and the new 100% stearin crown and pillar candles bear the Nordic Swan Ecolabel. The Nordic Swan Ecolabel guarantees to consumers that the product meets strict environmental requirements, that human health is safeguarded and high quality is assured.

VILLA STYLES

DENMARK

VILLA STYLES:

a wave of happy colours

Villa Styles is a concept within the Villa Collection Denmark brand. Villa Styles' interiors universe allows you to add amazing, exclusive and life-affirming colours to your existing décor – without painting an entire wall green.

Colours in the home are a trend we're seeing alongside the natural Nordic look – and the Styles products have been adapted to this particular universe. So you get the best of both worlds: life-affirming colours and warm, calm nature – a great match!

VILLA STYLES WAS CONCEIVED FROM A VISION TO CREATE A COLLECTION OF COLOURFUL INTERIOR DÉCOR THAT HAS A POSITIVE EFFECT ON YOU AND MAKES A DIFFERENCE IN YOUR HOME. VILLA STYLES IS INTENDED TO COMPLEMENT YOUR EXISTING DÉCOR. WE WANT TO MAKE IT EASY FOR YOU TO ADD FLAIR TO YOUR HOME WITH TODAY'S CHEERY, VIBRANT COLOURS.

THE COLOURS ARE CAREFULLY SELECTED TO MATCH THE COLOURS AND MATERIALS THAT CHARACTERISE THE SCANDINAVIAN STYLE: NATURAL COLOURS, WOOD, RATTAN, ETC. WHEN YOU DECORATE WITH VILLA STYLES YOU ARE CREATING A COLOUR-COORDINATED OASIS IN YOUR HOME IN WHICH ALL PRODUCTS COMPLEMENT ONE ANOTHER BEAUTIFULLY.

TREND: The colours of the rainbow

The Nordic natural colours are part of Villa Collection Denmark's DNA – but there are several Nordic colour palettes to choose from. Villa Styles' palette has its origins in the gorgeous green forests, the

deep blue sea, the blue sky, the pink sunset, the yellow rapeseed fields in spring and of course the autumn forests, where the colour amber takes centre stage.

Villa Styles

Decorate with colours

Contemporary colours

Multicoloured home decor accessories to transform your home

Even if you've chosen a Nordic look for your interior design, you can easily follow the major colour trend we'll be seeing over the next few years. Villa Styles has been developed to complement the Nordic look, and you'll of course encounter contemporary colours, which bring us all hope, smiles and joy in our everyday life.

Nordic earth tones and natural materials such as clay, sand, glass and rattan are an integral part of Villa Collection Denmark's DNA. Villa Styles' colours are also derived from the Nordic universe: the green forests,

the yellow rapeseed fields, the blue sea, the blue sky, sunsets with a stunning pink sky and finally amber, the autumnal colour of the forest.

Even when you decorate your home with multiple new and colourful Villa Styles products, you are creating harmony and cohesion across products and colours. The collection includes home decor accessories that match each other beautifully. The optimistic colours invite creativity and play and bring the home to life.

THING IN YOU.

Stylish reversible stool

Aesthetics and functionality go hand in hand

Colourful stool crafted from paper cord. Paper cord is a strong and durable natural material that is made with twisted strips of paper. The stool is closed at the bottom and can be turned over when you feel the need for a change. Ideal for use as a decorative sculpture, additional seating or a beautiful side table. Max. weight 130 kg. The product is made from FSC™-certified paper and other controlled material (FSC-C166612).

THE CHAIR CAN ALSO BE
USED TO HOLD CLOTHES IN
THE BEDROOM.

COLOUR ENHANCES THE
TABLE AND HELPS CREATE
AN IMPROVED DINING
EXPERIENCE.

Handmade glass candlesticks

The colourful glass candlesticks from Villa Styles are crafted by hand by skilled artisans, giving each candlestick its own unique character. The candlesticks have a base, a spiral shaped stem and a holder that fits a crowntop candle with a 2.2 cm diameter. Combine several glass candlesticks from Villa Styles in various heights and colours to create a colourful centrepiece display on the dining table, sideboard or windowsill.

The candle holders can also be combined with the new handmade tealight holders in familiar Villa Styles colours ranging from a deep green to a soothing blue, warm amber and soft pink. The light plays with the reflection through the coloured glass, spreading a vibrant and dancing light in the room. By arranging the candlesticks both individually and in groups, you can create your own personalised lighting universe that invites you to cosiness and relaxation.

Alone or all together

BOLIG MAGASINET
VINDER
DESIGN

2024
BO BEDRE

A personalised candlestick

The elegant aluminium candlestick from Villa Styles fits a crowntop candle with a 2.2 cm diameter and is available in amber, green, blue and pink. The candlestick can be used alone, or several can be put together to create a personal candlestick display. Up to four candlesticks can be stacked, making this candlestick perfect to use as an Advent candle at Christmas time.

It makes us very proud that the beautiful aluminium candlestick is among the winners of Bolig Magasinet and BO BEDRE's Design Favoritter 2024 in the Candlestick category, as it is a competition that celebrates innovative and aesthetic design in interior design.

Designed in collaboration with Design Studio Swift Creative, Aarhus.

BO BEDRE

Nordic calm

with cream-coloured glaze

Colourful glass art

The design is simple, yet catchy. A narrow bottom that expands upwards towards a wide and open top. The difference lies in the details with the soft, rounded edges creating an inviting look and the fine colours melting together beautifully. Both bowl and vase are in mouth-blown coloured glass, and you can feel the quality in the heaviness of the thick glass – it is solid and durable. The bowl is a decorative element in itself but can also be used as a fruit bowl or a creative flower centrepiece etc.

On the vase, flowers create an impressive effect. Villa Styles introduces artificial orchids and hydrangeas in multiple colours, which are an excellent choice for adding natural beauty and elegance – without the maintenance required by living plants.

MACHINES PLAY A ROLE IN THE PRODUCTION OF THE ARTIFICIAL FLOWERS, BUT THE DETAILS AND REALISTIC LOOK OF THE FINE FLOWERS STILL REQUIRE CONSIDERABLE HANDWORK.

Atmospheric lighting for both indoors and outdoors

This wireless LED lamp for indoor and outdoor use is easy to move around, which is ideal when light is fading on the decking, for a bedside table, or anywhere else in the home. Press and hold the button to increase or decrease the brightness to get the lighting that suits the mood. The base of the lamp is in aluminium with a silicone on/off button and dimmer, and the shade is made from PP plastic. The lamp has an IP44 rating so there's no need to worry if you forget it on the patio overnight.

The LED lamp is also available in Sand, a warm and natural hue, drawing inspiration from natural elements with soft, neutral colors. It is ideal for creating a relaxed atmosphere where the lamp is not only functional but also contributes to the overall look of the room.

an aesthetic
light
source

THE LED LAMP IS AVAILABLE IN ROSE, GREEN, AMBER AND SAND
FITTING WITH ANY DÉCOR WITH ITS MODERN APPEARANCE.

Playful design

Handmade lamps in papier-mâché

Villa Styles lamps are made from 90% recycled cotton pulp and 10% binder. Papier-mâché is a lightweight material, and for these lamps, it is made from a mixture of soaked cotton mass and a binder. The mass is shaped by hand into decorative lamps, which means that no two lamps are exactly alike. Then, the lamps are dried and given a protective coating.

Using papier-mâché as a material for lamps and other decor objects makes it possible to create a multitude of beautiful

shapes and to achieve a very special handmade and rustic look that truly stands out. The coloured papier-mâché lamps from Villa Styles spread colour, joy and light in the home.

The lamps are GRS certified. The Global Recycle Standard (GRS) is a certification standard for products made with recycled content. GRS certification verifies that a product contains at least 20% recycled material and that it meets certain social and environmental criteria.

A feast for the eyes

Stylish stoneware dinnerware from Portugal

The stoneware dinnerware set from Villa Styles is made in Portugal by ceramists with extensive know-how and experience. Each piece is shaped and polished by hand, creating beautiful and unique stoneware dinnerware with a smooth, fine finish. After this, the reactive glaze is applied and the stoneware is fired in the kiln at 1150 degrees. The reactive glaze makes each product unique. The appearance depends on the shape, kiln temperature and placement inside the kiln.

All glazes are created from scratch by our Portuguese manufacturer. The carefully-selected glazes feature life-affirming and exclusive colours that appeal to the eye. The stoneware range can be mixed and matched to create a personalised dinnerware presentation.

The wide range of colours offers something for every taste, from vivid tones to more muted shades.

The factory recycles the water used in production, and the heat generated by the ceramic kilns is fed into the rooms where the ceramics are dried, so that all gas energy is recycled. The factory makes its own clay and recycles all residues by mixing them with new clay and using the mixture for new products so that nothing is wasted.

The latest addition to the series presents an eye-catching colour combination of purple and orange, creating a dynamic and modern look.

Coffee with character

Coloured stoneware mugs for every taste

Enjoy genuine craftsmanship and modern design with the three new handmade and hand-decorated stoneware mugs – available in different colours and patterns and with or without handles. The stoneware is fired in a kiln at approx. 1200 degrees to achieve optimal durability and high quality. Each mug is uniquely decorated and features a matte finish reactive glaze that adds a rustic feel to every sip. The mugs are dishwasher and microwave safe, so you can enjoy their beauty and functionality with little effort.

Colours create mood

These beautiful water glasses add both style and functionality to your table. With their clear glass and finely hand-painted stripes twisting in a spiral pattern, they add an artistic touch to the table setting. The water glasses are available in two different colour combinations, each with a harmonious play of colours that complements the other pieces of the Villa Styles collection, creating a cohesive colourful table setting or décor.

The water glasses are not only beautiful, but also practical. They are stackable and are therefore easy to store in the kitchen cabinet on a shelf or in a drawer without taking up unnecessary space. In addition, the glasses are dishwasher safe which makes them even more practical in our busy lives.

COLOURFUL GLASSES ARE USED TODAY FOR DÉCORATION AS WELL AS TO CREATE ATMOSPHERE SINCE DIFFERENT COLOURS AFFECT OUR MOOD AND EMOTIONS.

a warm atmosphere

Candlelight creates a warm, welcoming atmosphere and cosy little oases in the home. Villa Styles' pillar candles are made from 90% paraffin and 10% stearin in Europe. Only high quality materials have been used, providing the candle with the best burning performance. Available in multiple colours and two sizes, the decorative candle makes a beautiful addition to the décor. Candles should always be placed on a surface that is not flammable.

Mix & match con cept

- Beautiful and unique products
- A colour concept where everything can be mixed and matched
- Vases, baskets and a stool in FSC™-certified paper and other controlled material (FSC-C166612)
- OEKO-TEX® standard 100 certified pillows, throws and rugs
- Amazing ceramic tableware from Europe
- Danish designed candleholders made in aluminium
- Candles with the Nordic Swan Ecolabel

Have a seat

Comfortable and colourful chair with metal frame. A delight for the eye, the chair ensures many hours of excellent seating comfort at a dining table or desk. The chair can also be used to hold clothes in the bedroom. The product's wood component is FSC™-certified oak (FSC-C166612).

THE CHAIRS COME WITH A BLUE FRAME AND BROWN COVER OR GREEN FRAME AND PINK COVER.

FUN AND WHIMSICAL CANDLESTICKS IN
COMPLEMENTARY COLOURS THAT BRING HOPE,
SMILES AND JOY.

INSPIRED BY THE
BRANCHES OF A TREE
EXTENDING UP TOWARDS
THE SKY

stoneware organic

Reminiscent of hand-crafted ceramics

We love the imperfections and organic shapes of nature, and we've channelled it into this beautiful stoneware candlestick. It was inspired by trees with branches extending up towards the sky. The rustic look of the candlestick is reminiscent of hand-crafted ceramics. The yellow or blue colour of the base brings hope and joy while remaining classic and Nordic.

THE VASES SPREADS CHEER
WITH ITS AMUSING LOOK AND
VIBRANT COLOURS.

Humorous vases

with beaks
and eyelashes

Stylish vase in stoneware with beak and eyelashes. The bright vase comes in two sizes and is decorated with hand-painted stripes in green, yellow, brown or blue.

Paper vases

For fresh and dried flowers

Water and paper aren't usually a good combination, but we have designed an absolutely amazing vase in hand-woven paper. Four vases come with a glass insert for water, and the two large models are for dried flowers. Accompanied by a lovely basket you can use to store whatever you like. The products are made from FSC™-certified paper and other controlled material (FSC-C166612).

The chair is not in the product range.

Colourful days

WE REMEMBER THE COLOURFUL DAYS WHEN GLASS FRUITS WERE USED AS DECORATIONS IN THE HOME. NOW IT'S TIME TO INVITE THEM BACK IN. NATURE BECKONS IN PINK, AMBER AND GREEN.

THIS IS HOME

For chilly

TWO NEW VARIANTS OF OUR SOFT AND COSY TROWS ARE NOW AVAILABLE IN BEAUTIFUL COLOUR COMBINATIONS THAT ADD WARMTH AND GLOW TO ANY ROOM.

Brandsite

Get to know Villa Collection Denmark online

On Villa Collection Denmark's brand site you can always find inspiration and presentation of collections and selected products in a cosy Scandinavian environment. Our online universe smoothly guides you to the latest catalogues, contacts in sales, PR and customer service and access to an image bank, an e-Shop and a Danish webshop.

Explore and visit us at www.villacollectiondenmark.design

Packaging

Simple yet beautiful packaging

Villa Collection Denmark is representative of the modern Scandinavian mood with a cool international look, and our products are a stylish and simple addition to any modern interior.

All Villa Collection Denmark products come in a brown box with a white label.

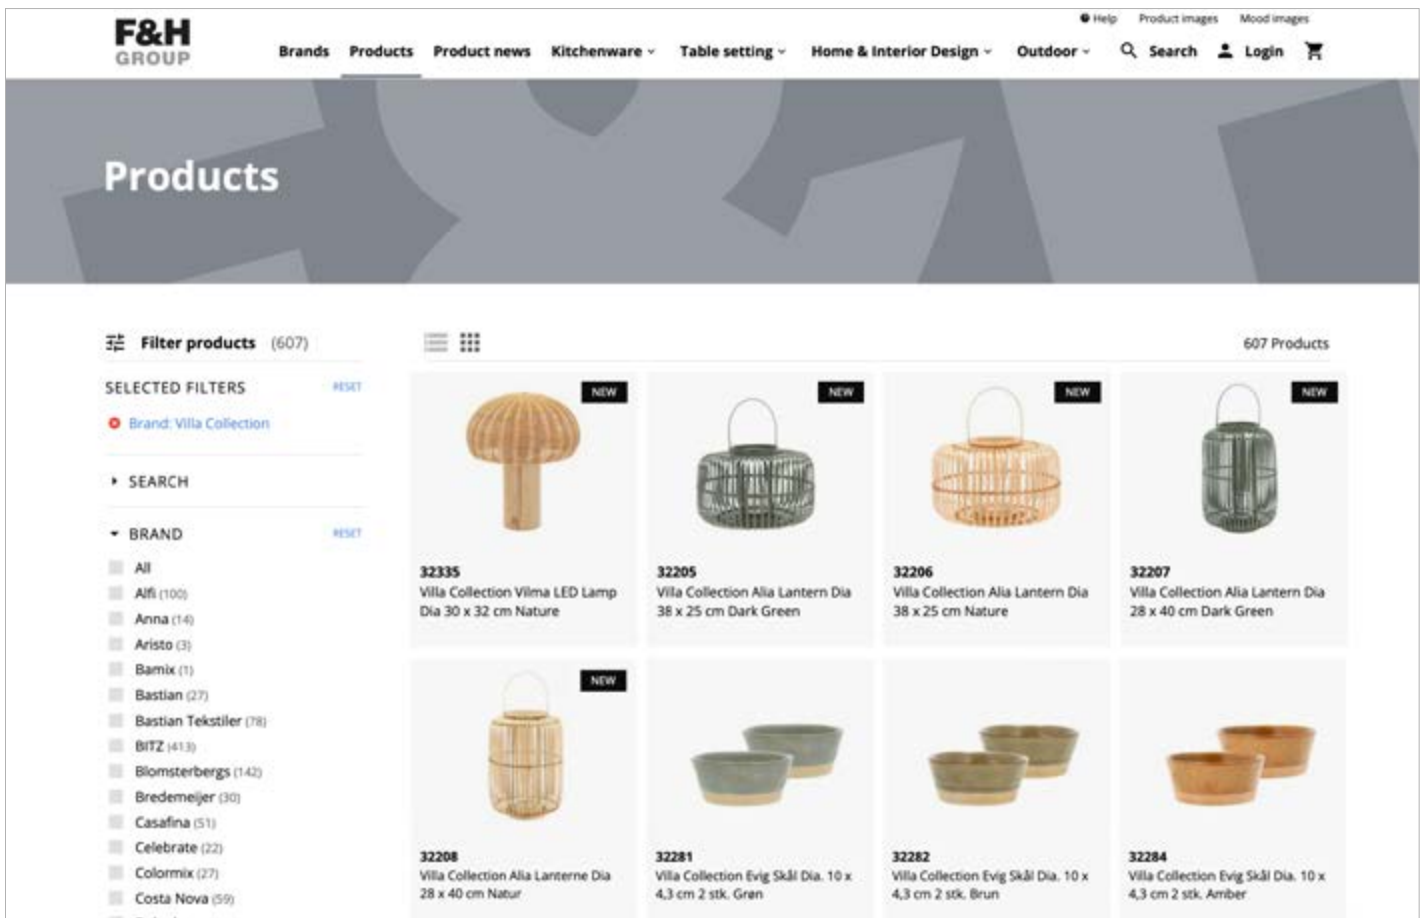

The Villa Styles label comes in four different colours that match the product.

Brown giftbox / White label

E-Shop

DK Du kan som kunde hos Villa Collection Denmark bestille dine varer 24/7. Den brugervenlige E-shop guider dig gennem hele kollektionen fordelt på enten kategori, serie, materiale eller farve, hvilket gør den nem og tilgængelig, uanset om du skal bruge en hel kategori eller blot søger en bestemt artikel.

Såfremt du har brug for login til E-shoppen, står vores kundeservice klar til at hjælpe dig via mail: info@fh-as.dk.

Shoppen er kun til brug for forhandlere, ikke privat personer.

EN As a customer at Villa Collection Denmark you can order 24/7. The user-friendly e-Shop guides you through the entire collection by either category, series, material or color – making it easy and accessible, whether you need an entire category or just looking for a specific item.

If you need login to the e-Shop please contact export@fh-as.dk.

The e-Shop is not open to private consumers.

FR En tant que client Villa Collection Danemark, vous pouvez commander 7/7j et 24/24h. Le e-shop simple et facile d'utilisation vous guidera à travers l'ensemble de sa collection. Vous pourrez effectuer des recherches par catégorie, série, matériel ou couleur facilitant ainsi l'accès aux articles que vous aurez sélectionnés.

Pour vous connecter au e-shop, contacter export@fh-as.dk.

Le e-shop n'est pas accessible aux particuliers.

NL Als klant van Villa Collection Denmark kun je 24/7 bestellen! De gebruikersvriendelijke E-shop handleiding leidt je door de complete collectie met filters op onder meer categorie, serie, materiaal of kleur die het makkelijker en toegankelijker maken wanneer je bijvoorbeeld op zoek bent naar een specifiek artikel of bepaalde categorie.

Wanneer je je login nodig bent stuur dan a.u.b. even een email naar: export@fh-as.dk.

De E-shop is niet toegankelijk voor particulieren.

IT Come cliente di Villa Collection Denmark è possibile ordinare 24 ore su 24, 7 giorni su 7. L'e-Shop di facile utilizzo vi guiderà attraverso l'intera collezione per categoria, serie, materiale o colore, rendendo il tutto facile e accessibile, sia che abbiate bisogno di un'intera categoria o che stiate cercando un articolo nello specifico.

Nel caso in cui abbiate bisogno di effettuare il login all'e-Shop, vi chiediamo di contattare export@fh-as.dk.

L'e-Shop non è aperto ai privati.

DE Du kannst als Kunde/Kundin bei Villa Collection Denmark deine Bestellung rund um die Uhr machen. Unser freundliche E-Shop leitet Ihnen durch die komplette Kollektion verteilt auf Kategorie, Serie, Material, oder Farbe. Es macht die Seite einfach und zugänglich egal ob du nach eine bestimmte Kategorie oder nur ein Artikel suchst.

Brauchst du ein Login für die E-Shop, steht unser Kundendienst bereit hier: kundenservice@fh-gmbh.de

Der Onlineshop ist nur für Händler und nicht für die Endverbraucher zugänglich.
